

# Commonwealth Cyber Initiative

## Is your company seeking quality cyber security interns?

- ▶ The Commonwealth STEM Industry Internship Program (CSIIP) is an online system where Virginia-based companies select and hire interns from a large pool of pre-qualified college and university STEM students throughout Virginia.
- ▶ If your company offers paid undergraduate STEM internships, you are invited to register with our program to be connected with Virginia undergraduate and recently graduated STEM students.
- ▶ Through grants from the Commonwealth Cyber Initiative (CCI) and the Coastal Virginia Commonwealth Cyber Initiative, VSGC can pay a portion of the company's internship payment directly to the student at a maximum of \$2500.
- ▶ We invite all Virginia students to register at our CSIIP website in order to take advantage of all the opportunities CSIIP has to offer.

### CCI Program Criteria

- ▶ Must be a Virginia-based business.
- ▶ Must be a small – medium business as defined by the Small Business Administration.
- ▶ Must offer a paid cyber security related project.
- ▶ Students must be pursuing a cyber security or cyber security related major.
- ▶ Undergraduate students must be from a Virginia state-funded college or community college.
